

CORTIVA INSTITUTE

Dear Students:

We are very proud to announce that new ownership and management is now in place for Cortiva Institute. We wish to extend warm wishes to all of our Cortiva students as we strive to make your experience the best that it can be. Our company has been in the post-secondary school business for 25+ years, mostly in the state of Florida. In some ways we have come full circle as Florida College of Natural Health which became Cortiva here in Florida a few years ago is, in fact, our original school. As the new owner of Cortiva Institute we will now operate in 5 states and look forward to serving students throughout the eastern United States. Although, we are now in multiple states, we remain committed to serving each and every student in a very local and individual way.

As the President of the company I take our responsibility to students very seriously. I welcome any comments, questions or concerns that you may have. In the coming weeks I will be visiting your campus and look forward to meeting with you very soon.

Cortiva Institute and Hollywood Institute are now one entity. We call it HIC! Our mission remains the same, to prepare our students for licensure and employment in the high demand fields of Health, Beauty and Wellness. I thank you for your confidence in us as we move through this transition.

Sincerely,

Neal R. Heller
CEO & President
Cortiva Institute
